

PROFESSIONAL TRAINING STANDARDS

Revenues for the U.S. spa industry grew an unprecedented 124 percent from 1999 to 2002 and those revenues are still growing, according to an ISPA spa industry report. And reflexology continues to grow in demand in the alternative health field.

The Indiana spa industry catapulted forward in 2006 by nearly a thousand jobs related to the renovation at Baden Springs. Reflexology grows in visibility and demand with medical spas now at two Clarian Health hospitals.

If you have dreamed of training for a rewarding career in the spa or holistic health industry, now is the time to prepare with a course aspiring to the highest of professional standards—IUPUI's Reflexology Certification Program.

If you have dreamed of a career in reflexology, check out our program. It costs less than a massage program, takes less training and is easily adapted to the spa, salon, dental office or hospital setting.
